

PROTOCOLS

PULMONARY SYSTEM

For the pulmonary system, apply the MED 400B Filters on both the right and left side of the Clavicles, and below the rib cage, adding the MED 81 +/- Filter on the solar plexus, as well as the MED 1B Filter on the Omoplates. Leave for 1 to 2 hours, every day if possible.

GENERAL PAIN

For generalised pain, do the Photoreactivation with Med 82B filters by adding 1 Med 212B filter below the navel and another 212B in the solar plexus. Leave for 1 to 2 hours and repeat every day if possible

ANTIESTRES

For the Stress make the Photoreactivation with the Med Filter 212B adding in the extreme cases 1 Med Filter 1B in the palm of the hands.
